

RESULTS - NATIONAL (Nov 2022)

Quarterly Update (Nov 2022)

I would like to introduce our National Manager at Brick and Block Careers - Tony Bishop. Tony's true passion is in supporting young Australians to build a career in the building and construction industry.

Michael Morrissey,
Brick and Block Careers - CEO

Tony is a qualified bricklayer himself and has experience working with Youth at Risk, a Registered Training Organisation, along with many years of Coaching and Mentoring.

Along with his bricklaying qualification, Tony holds a Certificate IV in Training and Assessment from the Australian Construction Training Services, and more recently graduated from a Foundations in General Management course which he attended at the Macquarie Graduate School of Management.

Tony commenced with Australian Brick & Blocklaying Training Foundation Ltd (ABBTF) back in 2004, in the role of Development Manager – Queensland after transferring to ABBTF from the Clay Brick & Paver Association of Queensland.

Now approaching 20 years in the industry, Tony is currently the National Manager for Brick and Block Careers (formerly ABBTF). He is responsible for managing operations in Victoria, Tasmania, New South Wales, the ACT, Queensland, and South Australia. Luckily travel is 'in his blood', and Tony enjoys the opportunity to travel around Australia.

Outside of work, Tony achieves work-life balance through his passion for sports, particularly rugby union. He held the office of Vice President for the Brisbane Junior Rugby Club for over four years from 2014-2018, along with Head Coach National Indigenous for the Under 16 Rugby Union Team.

This is all just the tip of the iceberg. Get to know Tony better!

STATE RESULTS FOR NSW-ACT

NSW – ACT team have been working with the Department of Education, as well as State Training to offer bricklaying Try- a-Trade programs to secondary school students through Regional Industry Education Partnerships (RIEP). These have mainly been in the Western/South Western suburbs and Illawarra.

School presentations and other community-based programs are also proving valuable in getting our industry front and centre with career teachers and potential apprentices. We also currently working with the new School Based Apprentice officers to promote bricklaying and source additional candidates for school-based apprenticeships.

Our focus in New South Wales has been on continuing to foster our Industry and Government relationships.
